Subject: Letter to Chair of NRCPD

Dear Angela

Please forward the letter below to Huw, NRCPD chair.

Many thanks

Dear Huw

We are writing to ask for clarification over the representation of interpreters on the NRCPD board. We understand there are practitioners involved but that they do not represent any organisations. Please clarify their role and function as board members.

We understand that David Wolfenden is on the board but is not there in his capacity as Chair of the ASLI board. Therefore there is no collective representation from any organisation at board level within NRCPD.

As ASLI, VLP or indeed those not members of either are not represented, we would therefore like to request an addition from NUBSLI to the board to ensure BSL interpreters have a collective voice within NRCPD.

I request that this letter be published on your website alongside other correspondence.

Regards
